Alakea Street

A Cold Bottle Of Primo Beer

Goes well at any time, but it tastes best when taken with the evening meal.

It sharpens the appetite, aids the digestion, and quiets tired nerves. It is the best beer you can drink, because it is the purest.

And it is the best tonic you can take and the most pleasant one, too.

Primo
The Beer That's Brewed To Suit The Climate

SODA WORKS OF HILO WARNED

Food Commissioner Says Must Conform to Law or Get in Trouble.

(Special Bulletin Correspondence.) HILO, Aug. 28.—Strenuous measures will be taken with the soda works in this city, unless steps to make radical changes in the local soft drinks have been effected within the next thirty days, according to a statement made by Food Commissioner Blanchard just before leaving here for the Mauna Kea last Friday. He stated that the soda water manufactured here was bad, in that bad coloring materials were used and that saccharine was used for sweetening instead of sugar. The use of the former in foodstuffs of all kinds has been especially forbidden in this Territory.

In speaking of the matter Blanchard stated that there was no reason that soda water of just as good quality as could be produced anywhere, should not be manufactured here, and that while at the present time considerable soda water from Honolulu was being sent here, if the local brands should be brought up to standard they should completely control the local market. He stated that there was no one place here that was bad, but that all were in sad need of improvement.

SAINTS ARE NOW PLANNING AHEAD

Boys Will Give Benefit Entertainment at Park—Money Needed to Start.

The St. Louis College team is looking around for money to pay its preliminary expenses to the Coast, and one scheme which it has worked out is to give three big shows at the Park Theater Monday, Tuesday and Wednesday nights of next week. The Honolulu Amusement Company has loaned the Park to the boys for these three nights, and also has been kind enough to allow them to have the best talent for their orchestra.

This plan is a good one, and will give everybody a chance to help advertise Hawaii on the mainland.

Among the interesting events on the program will be the appearance of the Kaal quintet club, which made such a hit to a full house at the Opera House last month.

Many of the St. Louis College boys will entertain with instrumental selections.

The St. Louis baseball team, with the word Hawaii marked in large letters on the players' shirts, proposes to tour the Pacific Coast next spring. A quintet club and Bill Rice, champion sprinter of Hawaii, will also accompany the team on its tour. This aggregation of players will compete against the best college and university teams on the Pacific Coast. When it comes to sprinting, Bill Rice, En Sue, Bushnell, Chillingworth and Akana will uphold the honor of the team. No doubt a fine relay team can be picked from the above-named players. Barney Joy will handle the weights, and Leslie will guarantee to throw the ball across the ocean. The boys will start playing in San Francisco, then going south as far as San Diego, thence north to Vancouver and return to Honolulu. While on the mainland the Saints expect to secure the services of Johnny Williams, former pitcher of the St. Louis team, who will no doubt greatly strengthen the team. The boys will give their first entertainment on the evening of the fourth of September at the Park Theater. The entertainment will start at 8 o'clock, and the program will consist of four numbers by people now acting in the various theaters, who were kindly loaned to the boys by the amusement company. An orchestra and Kaal's quintet club will be there to enliven matters. The proceeds derived from these entertainments will go toward helping the boys out on their proposed trip.

COMMISSION TO THE WINDWARD

Members of the loan fund commission with one or more members of the city and county board of supervisors will visit windward Oahu tomorrow, the party leaving "city hall" on or about eight o'clock in the morning in two automobiles.

It is the purpose of the visit to investigate the needs of better roads leading to Waikane wharf. The party is due to return to Honolulu early in the afternoon. Supervisor Eben Low has the arrangements for a visit to the other side of the island under consideration.

Senator Heyburn made a bitter but unavailing attack on the appropriation for a confederate naval monument at Vicksburg.

Constipation Vanishes Forever

Prompt Relief—Permanent Cure

CARTER'S LITTLE LIVER PILLS
Full. Fully regulated. Able to eat and drink. No pain. No distress. No bad effects. No loss of sleep. No loss of appetite. No loss of strength. No loss of color. No loss of vitality. No loss of health. No loss of life.

from the present time, and the active work of equipping the shops with machinery and putting the entire plant in working condition will be pushed on more rapidly in the near future.

Pearl Harbor Traffic.

"In this connection the importance of convenient travel for the personnel now employed at this station, and which will be largely increased when the station at Pearl Harbor is established, should not be overlooked.

"The present carriage road to Honolulu is 9.6 miles long, measured from the corner of King and Fort streets to the boundary of the naval property near Puuloa. This route is via the King street road past Fort Shafter, through Mr. S. M. Damon's estate at Moanalua, thence along the public highway to a point between Salt Lake and Aiea bay, this distance being 6.7 miles. The road for this distance is in fairly good condition, being rock metalled road, but it passes over a high hill near Salt Lake. From this point the road passes by a dirt road following a hilly, devious and circuitous route through the Honolulu plantation to the railroad station at Puuloa, 2.6 miles, this section of the route being a private road owned by the Honolulu plantation. From Puuloa railroad station the distance to the boundary of the naval property is .33 mile, this road also being privately owned, the property of the plantation company.

"There is a county road which branches off from the King street road at Moanalua, just before Salt Lake hill is reached, which passes to the east of Salt Lake hill, instead of over it, and crosses the railroad at a point one and a half miles east from Puuloa railroad station, thence follows the southern side of the railroad track in a direct line to Puuloa. The length of this section of road from King street road branch at Moanalua to Puuloa railroad station is 3.3 miles, as against the length of 5.6 miles from the same point on the King street road to Puuloa going over the usually traveled route over Salt Lake hill, and via the plantation road. This county road is so rough, hilly and uneven that it is not often used for ordinary traffic.

"For improving this road and making it satisfactory as a carriage route to Pearl Harbor, the following improvements are necessary:

"(a) The section from Moanalua to Puuloa, passing east of Salt Lake hill, should be straightened, improved and metalled, to carry heavy traffic and the heaviest grades eliminated.

"(b) The section of the plantation road between the railroad station and Puuloa and the boundary of the naval property should be opened as a public highway and be likewise improved and metalled.

"This will reduce the entire length of the wagon road from the naval station boundary to Fort street from 9.6 to 7.25 miles, and will give satisfactory road facilities to the Pearl Harbor station.

"Such a road would, in my opinion, be highly advantageous to the city of Honolulu, as affording easy access for tourists and other visitors, merchants and tradespeople to the naval station, which will undoubtedly become in time one of the greatest points of interest on this island.

"A communication was addressed by my predecessor, Rear-Admiral C. P. Rees, U. S. navy, to the Superintendent of Public Works, on the subject of improving the short stretch of plantation road between Puuloa railroad station and the boundary of the naval station at Pearl Harbor, but nothing practical has ever been done in the matter, and I trust that in connection with the extensive road building which is soon to be undertaken, this matter of great importance to the naval station at Pearl Harbor may be given due consideration.

"I have the honor to be, sir, very respectfully,

(Signed) W. C. COWLEY,
Rear-Admiral, U. S. Navy, Commandant."

AN INNOVATION IN SALES

Jordans begins tomorrow a series of 3-days sales, which will continue right through September. A year ago this firm did a record business in September. Now their stock is so much bigger and they have bought specially for this sale. They cannot show all at one time on account of want of space. The first three days will be specials in household goods, featuring linens and towels. The two large windows are crowded with bargains. The management expects to close out the lot before the week closes on Saturday. Other lines are planned for next week; in fact, the whole month of Jordan's should be a very busy one. The particulars of each three-days specials will be fully detailed in the Bulletin.

Judge W. J. Robinson yesterday approved the appointment of James L. McLean as executor of the will of the late Mrs. Marie Sturtevant. An inventory is to be filed within thirty days. Mrs. Sturtevant directed that enough money should be put aside to pay for the upkeep of her burial lot in Nuanu cemetery. The rest of the estate is divided in equal shares among Mrs. Jennie R. McLean, wife of James L. McLean and Mrs. Eliza Cassidy, wife of John Cassidy.
